**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

Claims 19-25 are rejected under 35 U.S.C. 102(b) as being anticipated by Oristein for the reasons set forth in the office action of 3/16/05.

Applicant's remarks that the prior art fails to show a "counterpart area". However, the claims recite that the "each wager area of said plurality of wager areas corresponding to a respective player betting area". Fig. 5 of Oristein shows the conventional craps wager surrounding the horn bets of his table. From the meaning of the plain definition of "corresponding", **1 a** : having or participating in the same relationship (as kind, degree, position, correspondence , or function). Hence, most broadly anything that "functions" as indicia on a wagering board can meet this limitation. The Craps wagers of Oristein function as indicia like the player betting areas. In short, "corresponding" is insufficient to distinguish over the prior art.
